

SN360 was designed by Sławomir Nienaltowski, author of AST and sold by Atari Studio (Mirage) in the 90's. Drive is capable of DSD format (360kbytes) and uses stock IBM PC compatible mechanics. This schematic was drawn thanks to Mikey, who lent me his own SN360 drive

Title: **SN360 (Mirage)**

Size: A4

Number: 1

Revision: 0
